

# energycanvas

Why and how we do something is central to our values and the services we offer. We are looking to grow our team with people who want to be part of a growing and dynamic entrepreneurial business focused on the carbon-neutral, renewable energy future.

## **Position Title:**

Draftsperson (Full-Time/Part-Time)

## **About Energy Canvas:**

We are a renewable energy company focused on reliable renewable energy and integration systems. We specialize in renewable energy generation, energy storage and microgrid systems for remote and edge of grid consumers with a particular focus on diesel displacement. Our asset development activities and technology focuses on creating value throughout the asset's life from inception to operation.

## **Job Description:**

- Prepare technical drawings and designs using AutoCAD, ensuring that drawings conform to specifications and industry norms.
- Use AutoCAD or ArcGIS to support wind and solar energy project-related activities, including:
  - Constraints mapping
  - Cadastral mapping and land control
  - Integrating 3<sup>rd</sup> party-generated inputs for purposes of presentation to global investment leaders.
- Work with technical professionals around the world to build out best-in-class inputs.
- Work with in-house designers to support our power system and met tower activities.

## **Ideal Candidate for this position:**

- Experience using AutoCAD
- Familiarity with ArcGIS or similar software.
- Can manage tight deadlines

We are seeking an early to mid-career level team player that is interested in working in a growth company on wind and solar projects across Canada and around the world. This position will largely be based from our office in Vancouver.

Please send your resume and cover letter to [jobs@energycanvas.com](mailto:jobs@energycanvas.com), and our hiring team will get back to you as soon as possible!
