

energycanvas

Why and how we do something is central to our values and the services we offer. We are looking to grow our team with people who want to be part of a growing and dynamic entrepreneurial business focused on the carbon-neutral, renewable energy future.

Position Title:

Installation Technician (Full-Time)

About Energy Canvas:

We are a renewable energy company focused on reliable renewable energy and integration systems. We specialize in renewable energy generation, energy storage and microgrid systems for remote and edge of grid consumers with a particular focus on diesel displacement. Our asset development activities and technology focuses on creating value throughout the asset's life from inception to operation.

Job Description:

- Lead and execute met tower installations with special focus being on the installation and practical project requirements for the safe installation of lattice towers at up to 140m tall.
- Training will be provided

Ideal Candidate for this position:

- Willingness to travel within Canada to support projects with field services
- Willingness to travel abroad for training and occasional project support.
- Competence and/or willingness to work at height
- Class 5 Driver's License and familiarity with trailers

This job has extended periods of time on the road and therefore the ideal candidate can work from our Vancouver office, work from home, or from the Halifax area. This is a leadership position that can lead to a wide array of project experiences and professional growth opportunities.

Please send your resume and cover letter to jobs@energycanvas.com, and our hiring team will get back to you as soon as possible!
