

energycanvas

Why and how we do something is central to our values and the services we offer. We are looking to grow our team with people who want to be part of a growing and dynamic entrepreneurial business focused on the carbon-neutral, renewable energy future.

Position Title:

Installation Technician (Full-Time)

Location:

Halifax, Nova Scotia

Start Date:

As soon as possible

About Energy Canvas:

We are a renewable energy company focused on reliable renewable energy and integration systems. We specialize in renewable energy generation, energy storage and microgrid systems for remote and edge-of-grid consumers, with a particular focus on diesel displacement. Our asset development activities and technology focus on creating value throughout the asset's life from inception to operation.

Job Description:

- Liaise with the Vancouver team for coordination of projects.
- Execute met tower installations with a special focus on the technical and practical project requirements for the safe installation of lattice towers up to 150m tall.
- Execute MET campaign de-installations/decommissioning activities.
- Perform maintenance work, and troubleshoot technical problems associated with wind measurement systems.
- Documentation of all field activities and prepare reports for stakeholders.
- Support site preparation, drone surveys and equipment procurement activities.
- Supervise external contractors during field installations of measurement masts, including quality control and commissioning.

Requirements for this position:

- Willingness to travel within Canada to support projects with field services.
- Willingness to work on weekends as necessary to support project field activities.
- Willingness to travel abroad for training and occasional project support.
- Rigging and climbing experience.
- Competence, experience, and willingness to work under the following conditions:
 - At height (up to 150m above ground level)
 - Outdoors in remote areas year-round
- Experience with operating excavators and/or heavy equipment.
- Class 5 Driver's License and familiarity with trailers.
- Problem-solving and troubleshooting skills.

energycanvas

- Excellent written and oral communication skills.
- Be legally able to work in Canada.
- Availability to start working immediately.

This job has extended periods of time supporting projects in Nova Scotia and other parts of Atlantic Canada. Therefore the ideal candidate would be from Atlantic Canada with a preference for the Halifax region with the flexibility to work from home.

Please send your resume and cover letter to jobs@energycanvas.com, and our hiring team will get back to you as soon as possible!
